1. **Introduction:** Libya Economic Acceleration Project (LEAP) is a four-year USAID-funded project implemented by Chemonics International in the south of Libya. The goal of LEAP is to promote economic growth and resilience in southern Libya. As part of project activities, LEAP requires the purchase of business development services to promote the growth and efficiency of micro-, small, and medium enterprises.

- The purpose of this RFQ is to solicit quotations from eligible vendors and independent experts for as-needed, ad hoc purchases of all or some of the listed below business development services:

As a result of this RFQ, LEAP anticipates issuing a blanket purchase agreement (BPA) – or possibly multiple BPAs – to establish specific pricing levels and parameters for ordering these services. This will allow LEAP to issue specific purchase orders on an as-needed basis for the procurement of these services over the next 24 months.. The vendor shall furnish the services described in any purchase orders issued by Chemonics under this BPA. Chemonics is only obliged to pay for services ordered through purchase orders issued under this BPA and delivered by the vendor in accordance with the terms/conditions of this BPA.

Offerors are responsible for ensuring that their offers are received by Chemonics in accordance with the instructions, terms, and conditions described in this RFQ. Failure to adhere with instructions described in this RFQ may lead to disqualification of an offer from consideration.

Chemonics will not award a contract to any firm that is debarred, suspended, or considered to be ineligible by the U.S. Government.
11. **Evaluation and Award:** The award will be made to a responsible offeror whose offer follows the RFQ instructions, meets the eligibility requirements, and is determined via a trade-off analysis to be the best value based on application of the following evaluation criteria. The relative importance of each individual criterion is indicated by the number of points below:
 - *Technical* – 30 points: Responsiveness to the Scope of Work and technical requirements and personal qualifications
 - *Corporate/Individuals Capabilities* – 20 points: Does the company/individual have experience relevant to the project Scope of Work?

Contact information must include at a minimum: the name of the point of contact who can speak to the offeror's performance, name and address of the company for which the work was performed, and email and phone number of the point of contact.
 - *Budget* – 30 points: Is the proposed budget fair and reasonable? Are the costs substantiated and do they reflect market rates?

Points will not be awarded for cost which will be primarily evaluated for realism and reasonableness. For overall evaluation purposes of this RFQ, technical evaluation factors other than cost, when combined, are considered significantly more important than cost factors. If technical scores are determined to be equal or nearly equal, cost will become the determining factor.

Please note that if there are significant deficiencies regarding responsiveness to the requirements of this RFQ, an offer may be deemed “non-responsive” and thereby disqualified from consideration. Chemonics reserves the right to waive immaterial deficiencies at its discretion.

Best-offer quotations are requested. It is anticipated that award will be made solely on the basis of these original quotations. However, Chemonics reserves the right to conduct any of the following:

- Chemonics may conduct negotiations with and/or request clarifications from any offeror prior to award.
- While preference will be given to offerors who can address the full technical requirements of this RFQ, Chemonics may issue a partial award or split the award among various Vendors, if in the best interest of the LEAP Project.
- Chemonics may cancel this RFQ at any time.
- Chemonics may reject any and all offers, if such action is considered to be in the best interest of Chemonics.

Please note that in submitting a response to this RFQ, the offeror understands that USAID is not a party to this solicitation and the offeror agrees that any protest hereunder must be presented—in writing with full explanations—to the LEAP Project for consideration, as USAID will not consider protests regarding procurements carried out by implementing partners. Chemonics, at its sole discretion, will make a final decision on the protest for this procurement.

12. Terms and Conditions: This is a Request for Quotations only. Issuance of this RFQ does not in any way obligate Chemonics, the LEAP Project, or USAID to make an award or pay for costs incurred by potential offerors in the preparation and submission of an offer.

Section 3: Scope of Work and Technical Qualifications

3a. Background

LEAP is a four-year, USAID-funded cooperative agreement implemented by Chemonics International, Inc. The life of the project spans from October 2022 to September 2026. LEAP works with private sector micro-, small, and medium enterprises (MSMEs) in southern Libya in the agriculture, services, and industrial sectors, among others, to support their sustainable economic growth.

LEAP has determined that a key constraint facing MSMEs in southern Libya is a lack of business skills and systems to support sustainable, efficient growth. To address this gap, LEAP will undertake a program to hire business development service providers who can work with MSMEs that have partnered with LEAP to build their capacity in four major areas:

1. Marketing:
 - a. Marketing training
 - b. Marketing strategy development
 - c. Digital marketing strategy
 - d. Digital marketing
 - e. Brand development
2. Business management capacity building
3. HR capacity development
4. Enterprise Resource Planning (ERP) and management systems development
5. Finance and accounting capacity building

Generally, LEAP seeks to identify business development service providers (vendors) that can provide technical assistance in the areas specified above as well as provide direct training to SME staff.

LEAP works with SMEs throughout southern Libya. However, the majority of SMEs partnered with LEAP operate in the major economic and population hubs of Sabha, Murzuq, Ubari, Ghat and Algatroun. Offerors should be able to operate to all these regions. Activities and trainings should be conducted in a location that is accessible to partner SMEs and should maximize the number of staff that can participate. For instance, if a successful offeror is not able to deliver training or hold a meeting with an SME on site at the business location, the offeror must provide a suitable alternative location that is in reasonable proximity to the SME.

3b. Objective

The objective of this solicitation is to support LEAP partner SMEs to gain skills, knowledge, and guidance documents that will enable them to become more competitive in regional, national, and international markets, increasing revenue, profits, and creating new jobs.

The specific objectives of the activity are as follows:

- Increase management, administrative, finance, procurement and human resources capacity and literacy of partner SMEs
- Increase capability of partner SMEs to improve their marketing strategies and develop new ones
- Enable partner SMEs to be able to create their own Enterprise Resource Planning system

- Enable partner SMEs to develop their business plans, promoting management and administrative skills required to run a successful business.

3c. Scope of Work

The purpose of this RFQ is to engage Vendor(s) and independent expert(s) to provide business development services to Chemonics and LEAP. LEAP is accepting quotations from business development service providers to provide the following services to the project's partner SMEs in southern Libya, including Sabha, Murzuq, Ubari, Ghat and Algatroun

Offerors should be prepared to conduct a thorough review of the partner SME (assessment), then develop the action plan with clear deliverables in the main objective areas noted above as needed and in consultation with LEAP and with a subsequent written request or PAR issued by LEAP, and finally provide technical assistance on those same objective areas. Please note that not all SMEs will require support in all areas and some firms will only receive partial support in these areas. Successful offerors will play a critical role in helping to improve all SMEs by assessing the business' strengths, opportunities for improvement, and recommending possible solutions. The successful offeror must be able to understand partner SME needs, what they wish to improve, and how to develop a strategy to achieve these objectives that will be included in the action plans to be submitted to LEAP as written deliverables.

Reporting

The vendor will regularly report on the implementation of the above activities, planning, and scheduling. Reports will include any challenges, barriers, or lessons learned throughout implementation. The vendor must also coordinate with LEAP's monitoring, evaluation, and learning plan to capture the results and impact of the above activities.

Technical Qualifications that the selected offeror must possess:

- Offerors must have experience and success in delivering similar technical assistance.
- Consultants will be required to travel to the field to deliver assistance to the selected SMEs to the locations listed above.
- Offerors are required to share the CVs and education background of the consultant's part of the quotation submission. Consultants must be fluent in Arabic, the working language of the selected SMEs. Any consultant that is unable to engage with SMEs will be noted as insufficient in completing the assignment deliverable, and thus the vendor may not be able to invoice the deliverable to LEAP.
- Offerors are required to equip consultants with training materials, laptops, projectors, and any other equipment which is required for the delivery of the technical assistance.
- Staff assigned to these tasks must have a bachelor's degree and a minimum three of years of experience; staff must have completed all required certifications and licenses required by local law and regulations.
- Experience with USAID or other donor-funded projects in Libya, especially those implemented by for-profit international firms like Chemonics, is highly preferred.

The table below contains the list of services under RFQ. Offerors are requested to provide quotations containing the information below on official letterhead or official quotation format. In

the event this is not possible, offerors may complete this Section 3 and submit a signed/stamped version to Chemonics.
