### III. SELECTION AND AWARD CRITERIA

The selection and award criteria are unique to all tenders. The evaluation process consists of three stages: 1) Administrative, 2) Technical and 3) Financial. Each stage requires information and documents from the bidder that will determine whether the bidder will progress to the next stage or not. Some examples of the documentation requirements are indicated below. However, the exact criteria for the different stages of evaluation will depend on the nature/type of tender.

The criteria for awarding contracts resulting from this Tender is based on ‘best value for money’. For the purpose of all tenders, DRC defines best value for money as:

*Best value for money should not be equated with the lowest initial bid option. It requires an integrated assessment of technical, organizational and pricing factors in light of their relative importance (i.e. reliability, quality, experiences, and reputation, past performance, cost/fee realism, delivery time, reasonableness, need for standardization, and other criteria depending on the item to be procured).*

For all bids deemed technically compliant as per the specification stipulated in Annex F – Statement of Works, DRC will give a weighted combined technical and financial score. The weighted score will determine the contract award.

The technical criteria for this RFP and their weighting in the technical evaluation are:

Technical criteria #	Technical criteria	Weighting in technical evaluation [Total 100%]
